

examples pool

num\_example\_samples=2

prompt template

`{directive}: {requirement}`

Please use the following criteria when assigning your score:

`{score_rubrics}`

To aid you in the scoring exercise, some examples are provided below:

6

5

5

9

Now please evaluate the following according to the criteria:

`{input_to_label}`

`{format_instructions}`

MachineLabeler

Examples are resampled for each of the **num\_prompt\_samples** calls to the labeler

**Note:** label quality may degrade if we include too many examples in a given prompt. Defining an example pool and a small **num\_example\_samples**, combined with a higher **num\_prompt\_samples**, allows us to benefit from example diversity without sacrificing label quality.
